

# Poems about the peace monument

*Myrthe van Seggelen (Netherlands):*

Powerful

In control and proportioned

The stable cubes made of solid security

Trying to strengthen peace

Outside where bodies have layed

In the cold where man have suffered

And where the world ended

Reassurance

*Jakob Haubjerg (Denmark)*

Thought–provoking

Land, soundless

“Peace “ of art

Future

*Jean Anna Grandjean (Denmark)*

Dark

Grey days

A beautiful red

Shining through the darkness

hope

## *Arnis Prokopovics (Denmark)*

In one accord

With harmony through life's trials

Let's keep on walking – miles and miles

Hand in hand, agreement strong,

Standing together, life prolong

Not with bitterness and sharp sword

But with vigorous vivity – in one accord
